build your own robot 打造你自己的机器人

Otto is an interactive robot that anyone can make!

you will be able to build your own Otto in as little as two hours!
easy to build and disassemble with a simple screwdriver.

Bluetooth control & coding APP

ARDUINO PROGRAMMING
编程

a

download Arduino for FREE to your computer
from www.arduino.cc

choose the appropriate Operating System
installation package for your computer.

**b**

install Arduino in your computer...

a

go to ottodiy.com in the build it! section
download and unzip [OTTO_DIY_all.zip](#)

b

from the “driver” folder install [CH341SER](#)

choose the appropriate Operating System
installation package for your computer.

c

copy or move all “[libraries](#)” folders to:

C:\Documents\Arduino\libraries\
(or wherever your Arduino library folder is)

d

copy or move all “[OTTO_](#)” folders to:

C:\Documents\Arduino\
(or wherever your Arduino sketch folder is)

a

open Arduino and
open OTTO_avoid.ino

**b**

Connect Otto to your computer USB

select in Arduino Tools/

- Board: “Arduino Nano”
- Processor: “ATmega328”
- Port COM# (where your Otto is connected)

5

a

verify the code

b

upload the code

c

Otto will walk endless until detect obstacles to avoid

in Arduino the principal loop code looks like this:

OTTO_avoid.ino

```
52 | void loop() {  
    if(obstacleDetected){  
        Otto.sing(S_surprise);  
        Otto.playGesture(OttoFretful);  
        Otto.sing(S_fart3);  
        Otto.walk(2,1300,-1);  
        Otto.turn(2,1000,-1);  
        delay(50);  
        obstacleDetector();  
    }  
    else{  
        Otto.walk(1,1000,1);  
        obstacleDetector();  
    }  
}
```

sing function:

Otto.sing(S_surprise);

└──┬──┘
|
sing function

("sound to make")

try change sound:

(S_surprise);

(S_OhOoh);

(S_OhOoh2);

(S_cuddly);

(S_sleeping);

(S_happy);

(S_superHappy);

(S_happy_short);

(S_sad);

(S_confused);

(S_fart1);

(S_fart2);

(S_fart3);

(S_mode1);

(S_mode2);

(S_mode3);

(S_connection);

(S_disconnection);

(S_buttonPushed);

play Gesture function:

```
Otto.playGesture(OttoFretful);
```

play Gesture function

("emotion to express")

try change emotion:

(OttoSuperHappy);

(OttoSad);

(OttoSleeping);

(OttoFart);

(OttoConfused);

(OttoFretful);

(OttoLove);

(OttoAngry);

(OttoMagic);

(OttoWave);

(OttoVictory);

(OttoFail);

move functions:

Otto.walk(2,1300,-1);

move function (“#steps, Time[ms], direction”)

try change move function to:

Otto.walk(1,1000,1);

Otto.walk(1,1000,-1);

Otto.turn(3,1000,1);

Otto.turn(3,1000,-1);

Otto.bend(2,1000,1);

Otto.bend(2,500,-1);

Otto.shakeLeg(1,1000,1);

Otto.shakeLeg(1,500,-1);

Otto.moonwalker(1,1000,moveSize,1); moveSize: “height of the move”

Otto.moonwalker(1,1000,30,1);

Otto.crusaito(1,1000,moveSize,1);

Otto.flapping(1,1000,moveSize,1);

Otto.swing(1,1000,moveSize);

Otto.updown(1,1000,moveSize);

Otto.tiptoeSwing(1,1000,moveSize);

Otto.jitter(1,1000,moveSize);

Otto.ascendingTurn(1,1000,moveSize);

Otto.jump(1,1000);
